## **Aspiring, Inspiring and Empowering!!**

Aspiring to inspire the youth, Inspiring to empower through your rights! In a world full of differences around us, it is important to build up a generation of young people who will not just be spectators in the society but active players. It is my call to arms; my proclamation of support for a future that is focused on instilling an Aspiring, Inspiring, Empowering generation of youth.

Coming from a law background, I see myself as a strong candidate for the student union committee, as advocacy for students and fostering solidarity is in my sheer interest.

It is my intention to be easily contacted, so that all of them especially International students do not hesitate to seek help when stuck. Therefore, in my opinion if we make the vision to welcome the students and embrace the culture of engagement with the people in the local community then the university culture will also be embraced.

For this academic year therefore, I am keen on the positive change I want to bring, as well as the innovations that will respond to the desire and need of our students. For the purpose of this role, my areas of focus will be-student-centered advocacy, fostering an inclusive community, promoting sustainable futures, upholding ethical leadership, and addressing mental health and wellness. I am positive that focussing on these areas will result in a real student success with increased trust in student union.
